## Acer Chromebook™ C722

- Designed for durability, this Chromebook features a shock absorbent bumper to protect components, and improved edge and interior design that protects the device from up to 132 lbs of downward force.
- With up to 15 hours of battery life, this Chromebook will power your productivity throughout the day.
- With children in mind, we've made sure this Chromebook meets two leading toy safety standards: ASTM F963-16 and UL/IEC 60950-1. Plastic coatings used on the Acer Chromebook C722 have been strictly tested and certified for safe use by children.
- Keep the keys where they should be. Mechanically-anchored keys makes sure the keyboard stays in good condition, even in large classrooms where computers are shared among students.
- Enjoy all the advantages offered by Chrome OS: quicker boot times, an easy-to-use interface, built-in malware protection, access to millions of Android™ apps on Google Play™, and much more.

1.	Specifications vary depending on model.	6.	Minor variations in system dimensions are possible due to the manufacturing process.
2.	Shared system memory may be allocated to support graphics, depending on system memory size and other factors. Actual system memory available to the operating system will be reduced by any memory used by the graphics solution and resources required by the operating environment.	7.	Weight may vary depending on product configuration, vendor components, manufacturing variability, and selected options.
3.	Memory speed may vary, depending on the CPU, chipset or memory fitted.	8.	The listed battery life is tested by Google according to this formula (the test loops and continues running until the battery is drained): The first 60% of the test period is 1) Browsing: A new web page is loaded every minute. The web page is scrolled down to the first "page fold" (the bottom of the part of a web page that is visible on an average screen – a depth of around 600 pixels) every 10 seconds, then scrolled back up at the same rate. The next 20% of the test period is 2) Email: Gmail is loaded in the foreground tab and audio is streamed from a background tab. The next 10% is 3) Documents: Various Google Docs are loaded. The final 10% is 4) Online Video: A full-screen 480p YouTube video is played.
4.	All brands and product names mentioned herein include trademarks of their respective companies and are used solely to describe or identify the products.		
5.	1 GB is 1 billion bytes. Actual formatted capacity is less and may vary depending on preloaded materials and operating environment. Recovery Management uses a portion of the stated hard disk capacity as dedicated backup space.		

In a continuing effort to improve the quality of our products, information in this document is subject to change without notice. Images shown are only representations of some of the configurations available for this model. Availability may vary depending on region.

As a phenomenon known to thin-film transistors (TFTs), liquid crystal displays (LCDs) commonly exhibit a small number of discoloration dots, as so-called "non-conforming pixels." This phenomenon is a limitation of TFT LCD technology, not a product defect, and as such is not covered by Acer's warranty.
